

**Lab 8 – Deadline: lab 10 (same groups of minimum 3)**

**Themes laboratory:**

1. **Runtime verification, MOP, Java MOP**
2. Github
3. Team coordination, negotiation

**Problem 1 [30 points] – partial optional**

On established themes continue work at the project (**All names will be in English**).

- 1) **Implement a component at 2 persons with MOP using examples from the course – 15 points – mandatory**
- 2) **Implement a component at 2 persons with MOP (which is not in the course) – 15 points – optional**

The project will be saved on Github. One person from the team will coordinate the team and will know what the members have done and will make a short presentation of components made by them. Also this person will establish and negotiate points that deserve each team member.
