

Real-time social network graph analysis using StreamMine3G

Scientific Seminar

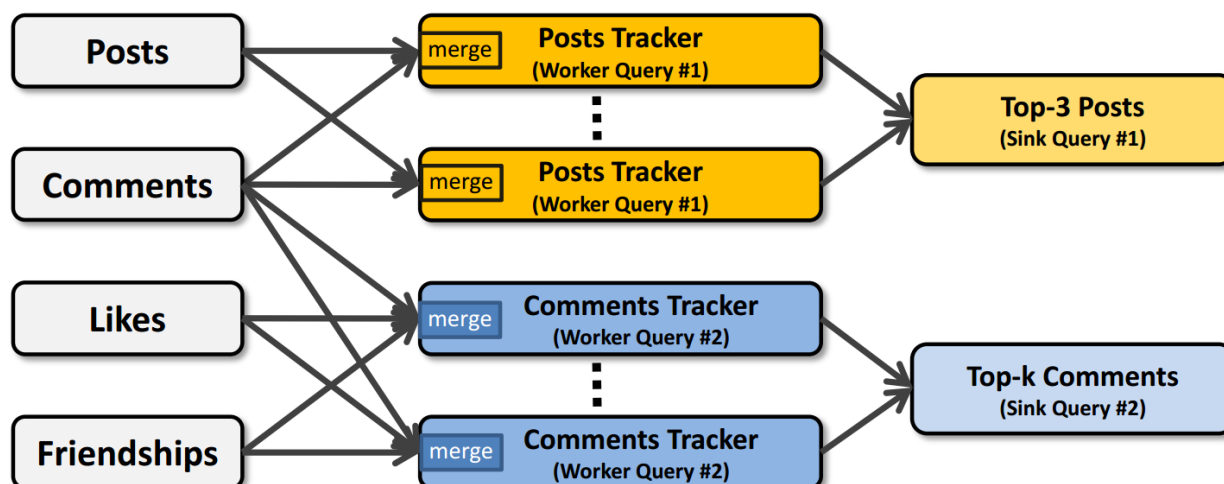

Dr. André Martin

(Technische Universität Dresden)

Location: Faculty of Computer Science, Iași

5 May, 12:00 - Room C308

The DEBS Grand Challenge is a yearly competition aimed at both research and industrial event-based systems. The objective is to implement a solution to a proposed problem, which is evaluated in respect to correctness, throughput and latency. This talk will overview solving DEBS Grand Challenge 2016, which proposed a problem in the area of social networks, using StreamMine3G, a distributed, highly scalable, elastic and fault tolerant event stream processing system developed at TU Dresden.

This event is part of:

EBSIS – Event Based Systems in Iași

A Twinning between Universitatea Alexandru Ioan Cuza din Iași,
Université de Neuchâtel and Technische Universität Dresden
